

# A Smarter Electronic Signature Process for Authorizing Recurring Payments

EFT Agree is an electronic signature process that is used to authorize recurring payments in compliance with an Electronic Funds Transfer Act (EFTA) and Regulation E. Our patent-pending product obtains the electronic signature while the consumer is on the phone through the use of an interactive voice recording (IVR) solution.

Here are three smart reasons to use EFT Agree to comply with Regulation E:

## Consumer Convenience

The EFT Agree process is executed while the consumer and agent are on the phone together, making it an easy and convenient process for both parties.

## Higher Completion Rates

Compared to alternative authorization methods such as mail and web portals, EFT Agree obtains significantly more completed authorizations, resulting in less payment plan fall-outs and more dollars collected.

## Easy Implementation

EFT Agree has few technical requirements and works within your current infrastructure. With such a seamless process, we'll have you up-and-running in as little as three days.

Obtain authorization  
for more recurring  
payments with  
LocateSmarter.
